

LEE DYKXHOORN, AIA
Senior Project Architect

A graduate of the Massachusetts Institute of Technology's School of Architecture, Lee Dykxhoorn has a decade of design, documentation, and construction experience of academic, civic, and corporate facilities. Lee is adept at navigating complex technical design challenges and balancing modern design with constructability. He has extensive expertise in building envelope design and detailing—excelling at turning complex ideas into rational and buildable solutions. He is highly-experienced in Building Information Management and oversees all the firm's design technology.
